

ASSEMBLY INSTRUCTIONS

ITEM NO.: 1-3701-9-118

B → A → C → F → D → E

1. Carefully unpack and identify all parts referring to illustration for parts identification.
2. Turn the power to the installation point **OFF**.
3. Unravel the supply power and ground wires and pass them through the center holes of center column (B) and fixture loop (C).
4. Thread the center column (B) to the coupling at the top of fixture body (A). Hands tighten until snug.
5. Thread the fixture loop (C) onto the center column (B).
6. Thread the finial (F) onto the nipple of fixture body (A). Hands tighten until snug.
7. Adjust the adjustable sockets to the same height of the candle sleeve of the fixture body (A). Then fix them at the height. Place the candle sleeve (D), (E) over the socket of the fixture body (A)
8. Referring to the installation instruction with the product for the wiring and installation.
9. Install proper bulbs (NOT included) to each socket referring to the markings and / or labels on the fixture for maximum wattage.
10. Retain power to the installation point ON and retain this sheet for future reference.
