

ASSEMBLY INSTRUCTIONS

1. Carefully unpack and identify all parts referring to illustration for parts identification.
2. Turn the power to the installation point OFF.
3. Unravel the supply power and ground wires and pass them through the center holes of stem (D), center assembly (E), center tube (F), (G) and canopy (H).
4. Twist the stem (D) to the nipple of the socket assembly (B).
5. Install the center assembly (E) to the top of the stem (D). Hand tighten until snug.
6. Thread the bottom of center tube (F) to the center assembly (E). Repeat process for remaining center tube (F) and (G). Hand tighten until snug.
7. Carefully place both ends of the support arms (C) to the top loop of the center assembly (E) and to the bottom loop of fixture body (A), as shown in the diagram.
8. Refer to the additional installation instructions included with the product for wiring and installation.
9. Install proper bulbs (not included) into each socket referring to the markings and/or labels on the fixture for maximum wattage.
10. Restore power to the installation point and retain this sheet for future reference.
