

ASSEMBLY INSTRUCTIONS

1. Carefully unpack and identify all parts referring to illustration for parts identification.
2. Turn the power to the installation point OFF.
3. Unravel the supply power and ground wires and pass them through the nipple (B), column (C), coupling (D), stems (E), stem (F) and canopy (G).
4. Install the nipple (B) onto the hex nut on the fixture body (A).
5. Carefully place the column (C) over the nipple (B) of the fixture body. Secure with coupling (D).
6. Thread the bottom of stems (E) onto the fixture body (A). Repeat the process for remaining stems (E) and stem (F) as shown in the diagram, until snug.
7. Refer to the additional installation instructions included with the product for wiring and installation.
8. Install proper bulbs (not provided) into each socket referring to the markings and / or labels on the fixture for maximum wattage.
9. Restore power to the installation point and retain this sheet for future reference.
