

ASSEMBLY INSTRUCTIONS

1. Carefully unpack and identify all parts referring to illustration for parts identification.
2. Turn the power to the installation point OFF.
3. While threading wire through, assemble the rods (5) together using the nipples (4). Attach the bottom end of the rods (5) onto the fixture body (6) until tight. Install the loop (3) onto the top end of the rods (5).
4. Secure the glass (12) onto the ring A (9) and the ring B (13) using the screw (8), plastic plate (10), and the nut (11).
5. Press the lock button (14), and adjust the length of the steel safety line (7) so that the fixture is level.
6. Refer to the additional installation instructions included with the product for wiring and installation.
7. Install proper bulbs (not included) into each socket referring to the markings and/or labels on the fixture for maximum wattage.
8. Restore power to the installation point and retain this sheet for future reference.
