

ASSEMBLY INSTRUCTIONS

1. Carefully unpack and identify all parts referring to illustration for parts identification.
2. Turn the power to the installation point OFF.
3. While threading wire through, assemble the rods(5) together using the nipples(4). Attach the bottom of the rods(5) onto the fixture body(6) until tight.
4. Press the lock button(7) to adjust the length of the steel safety line(8) so that the fixture is level.
5. Lock the glass A(10) onto the ring A(9) using the screw(18) and the nut(20).
6. Install the top of glass B(12) and the bottom of glass A(10) onto the ring B(11) using the screw(18) and the nut(20).
7. Using the same method, install the glass C(14), glass D(16) and ring C(13), ring D(15), ring E(17) onto the lamp body .
8. Refer to the additional installation instructions included with the product for wiring and installation.
9. Install proper bulbs(not included) into each socket referring to the markings and/or labels on the fixture for maximum wattage.
10. Restore power to the installation point and retain this sheet for future reference.
