

ASSEMBLY INSTRUCTIONS

1. Carefully unpack and identify all parts referring to illustration for parts identification.
2. Turn the power to the installation point OFF.
3. Remove the screws (E) from the arms of the top assembly (A) and remove from box.
4. **Carefully place the glass panel (H) into the slot at the bottom of the frame (G), then place the strip plate (I) on the glass panel (H) and secure with screws (J).**
5. Thread the bottom of stem (D) onto the socket assembly (F). Repeat the process for remaining stem (C) as shown in the diagram, until snug.
6. Install the top assembly (A) onto the stem (C). Hand tighten until snug.
7. Install the arms of the top assembly (A) onto the the frame (G) and secure with screws (E).
8. Thread the fixture loop (B) onto the nipple of the top assembly (A).
9. Refer to the additional installation instructions included with the product for wiring and installation.
10. Install proper bulbs (not provided) into each socket referring to the markings and / or labels on the fixture for maximum wattage.
11. Restore power to the installation point and retain this sheet for future reference.
