

ASSEMBLY INSTRUCTIONS

1. Carefully unpack and identify all parts referring to illustration for parts identification.
2. Turn the power to the installation point OFF.
3. Unfold the arms of the fixture body (A) to desired locations.
4. Unravel the supply power and ground wires and pass them through the center holes of main rod (B), bottom column (C), coupling (D), rods (E), rod (F), loop (G), and canopy (H).
5. Install the main rod (B) onto the hex nut of the fixture body (A).
6. Place the bottom column (C) over the main rod (B) of the fixture body (A), securing with coupling (D).
7. Thread the bottom of rods (E) onto the fixture body (A). Repeat the process for remaining rod (F), as shown in the diagram. Hand tighten until snug.
8. Install the loop (G) onto the top of rod (F).
9. Use the carabiner (I) to connect the loop (G) to the loop on the canopy (H) and twist the locking mechanism to secure.
10. Refer to the additional installation instructions included with the product for wiring and installation.
11. Install proper bulbs (not included) into each socket referring to the markings and/or labels on the fixture for maximum wattage.
12. Restore power to the installation point and retain this sheet for future reference.
